

INSTALLED . . . Newly elected officers for St. Gerard's Council of the Knights of Columbus are (from left) Ray McLaughlin, deputy grand knight; James Alford, warden; Andrew La Horner, grand knight; Dean Mitchell, recording secretary, and B. Williams, chancellor.

### La Horner to Head Area Council

St. Gerard's Knights of Columbus 4919 installed its newly elected officers last Monday at a ceremony held at the Nativity Parish Hall Torrance. Conducting the ceremony was District Deputy James Weber and his Degree Team.

Andrew La Horner will head the new officers as Grand Knight. A Torrance resident and World War II veteran, La Horner is an administrative assistant at TRW's Space Park in Redondo Beach.

His council officers are: Ray McLaughlin, deputy grand knight; B. Williams, chancellor; James Alford, warden; Dean Mitchell, recording secretary; Leo Tanke, financial secretary; Charles Butterfield, treasurer; Bill Buchenstein, lecturer; Robert Henning, advocate; the Rev. Gregory Kareta, chaplain; Dick Joostin and Pete Crotty, inside guards; Andy Bumbrick, outside guard, and Burt LaCharite and Joe Sweeney, trustees.

### Reagan Drive Reaches Soldiers in Viet Nam

A "Reagan for Governor" movement is getting underway among Californians in South Viet Nam. The movement was initiated by Carl W. Murtomaki at Tan-Son-Nhut Airbase after he wrote a letter to Republican gubernatorial nominee Ronald Reagan, "Someplace in California."

Campaign materials were requested by Murtomaki so he could "start a Reagan for Governor" movement in Viet Nam. Reagan turned the letter over to his campaign headquarters along with a note of thanks and Murtomaki's request was promptly filled as a packet of campaign material was shipped to him.

A. M. LETHER Team Director

### Committee Forms For Fall Drive

More than 100 volunteers from the Harbor Area will form a commerce and industry solicitation team for the United Crusade this fall, according to A. M. Lether, team manager.

### Veterans May Qualify For Monthly Benefits

Former VA pensioners who at the beginning of this year did not qualify for pensions because of anticipated excess income may now be eligible for the balance of the year if their income will fall below the annual limit.

Income limits under the current system are \$1,800 for a veteran or widow without dependents and \$3,000 for those with dependents. To be eligible a disabled veteran must meet income limits, have served on active duty at least 90 days, part of which was during wartime, and have been honorably discharged.

Eligibility for non-service connected or death pensions is based on income, Kelly said. Although a disabled veteran or his survivor was previously found ineligible, he may be entitled to monthly

benefits if his income has decreased below the figure allowed under the law. Further information is available at the Long Beach branch of the County Office of Military and Veterans' Affairs, 415 West Ocean Blvd., Rm. 301, in Long Beach. The office is open daily.

### 10-Year Program

### World Drive to End Smallpox Under Way

Public health experts received a sharp reminder recently of the real dimensions of the problem involved in "eradicated" any disease. Among the once widespread scourges that have been substantially done away with in some Western nations, smallpox is an outstanding example.

Every person in the world who is at any risk of contracting the disease — and that means most people — will have to be vaccinated. Vaccination programs will be conducted nation to nation. Because immunity gained by vaccination is far less than lifetime (medical estimates vary from three to ten years), whole populations will be vaccinated within three-year periods to make sure that everybody is immunized and nobody is a threat to his fellow men. This should eliminate the need for mass revaccinations.

The trouble is, of course, that a contagious disease can't be truly eradicated anywhere unless it is eradicated everywhere. This is truer than ever in a day of rapid and cheap transportation. The epidemic of smallpox in England is thought to have been caused by the arrival of a traveler from Africa or South America. One diseased person: that was all it needed. Despite such difficulties, the World Health Organization has decided to launch a smallpox eradication program through which it hopes literally to wipe the disease from the face of the earth within ten years. To accomplish this,

If the plan succeeds, it will be the first complete elimination of any disease on a global scale. WHO thinks it can be done. The organization certainly deserves universal cooperation in its efforts.

TO PAY DIVIDEND A 15 cent quarterly dividend on the 266,241 outstanding shares of common stock has been announced by the Board of Directors of Dominguez Water Corp. The dividend will be payable Sept. 15 to shareholders of record Aug. 31.

### New Hours Posted at City Pool

Rehearsals for the 11th Annual Aquacade will limit hours the city plunge is open to the public, the Torrance Recreation Department has announced.

Regular pool hours will end Wednesday and Thursday evenings, Aug. 10 and 11, when beginning at 7 p.m. a cast of over 100 put the final touches to the all-water show.

Due to Friday and Saturday performances of the Aquacade, the pool will close at noon Aug. 12 and remain closed Saturday, Aug. 13. The plunge will resume regular hours, Sunday, Aug. 14.

### Highway Use Tax Checked By the Feds

Compliance with the provisions of the Federal highway use tax law by owners of trucks and buses will be checked closely, according to R. A. Riddell, district Director of Internal Revenue.

Riddell said correctness of returns filed by owners of taxable vehicles will be checked to determine whether all taxable vehicles were reported, and whether they were reported in the correct tax categories.

Lists of owners of taxable motor vehicles are being compared with the Federal Highway Use Tax returns filed, to assure that all owners of taxable trucks and buses pay their fair share of tax. The Internal Revenue Service has gone to great lengths to obtain voluntary compliance with the Highway Use Tax filing requirements, Riddell said. Tax revenue received under the Act is returned to the states to help pay the costs of the Interstate Highway System now under construction. This law dates back to July 1, 1956.

Truck and bus owners may obtain Publication No. 349, Revised, "Federal Use Tax on Trucks, Truck Tractors, and Buses," free of charge by writing the district director's office.

### Optometrists Open Photo Competition

Area coordinator for the seventh annual photo contest of the California Optometric Association is Dr. Eleanor Z. Thill, Torrance optometrist. The contest offers cash prizes for pictures interpreting the theme "The Wonderful World of Vision," and is open to amateur and professional photographers alike.

Entries will be accepted through Nov. 15 and further information can be obtained by contacting Dr. Thill.

### Dorothy Digs

If your lawn has accumulated a crop of broad leaf weeds this summer, you had better get rid of them before they go to seed and spread all over.

The easiest way to weed your grass lawn is by spraying with a 2,4-D, 2,4,5-T Weed Killer that kills only the broad leaf weeds and does not harm grasses.

Be sure to follow directions on the label and keep the spray away from shrubs and flowers.

Spray while the weather is warm and the weeds are growing vigorously. This weed killer goes into the plant and completely kills it roots and all.
